Uipa filter	✓	X
Smart design	✓	X
Completely hermetic device	✓	X
Connector with dual function: aspiration/disinfection	✓	X

WHY IS **S.P.R.I.Z.** THE PERFECT PRODUCT FOR YOU?

If you are looking to complete your medical catalogue with a new product being at the same time distinctive from your competitors and part of a growing market with a limited offer, stop right there. You found it!

THE NEEDS OF MEDICAL DEVICES MARKET

In healthcare facilities, the need of a correct management of biological fluids is steadily increasing to allow personnel to work in a safe environment. This also means more effective working processes and reduction of special waste. To face these problems there are still very few solutions available, with a very broad range of features and performances.

IN.CAS. — A RELIABLE SUPPLIER

In.Cas. has been a reliable distributor of top notch medical devices for 25 years and in 2011 developed its first own biological fluids aspirator. Today S.P.R.I.Z. is the new benchmark for the safe handling of liquid hospital waste.

S.P.R.I.Z. — A UNIQUE PRODUCT

S.P.R.I.Z. is the most powerful, capacious and safe aspirator for biological fluids on the market, with antiviral and anti-bacterial silver ions protection with superior functionalities and performances than all other competitors.

AN EXCLUSIVE ECONOMIC EDGE

S.P.R.I.Z. involves the supply of exclusive consumables which are not available on the free market. Thus, it guarantees continuous and ever-increasing revenues.
